

METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XXIV.

May, 1941 — October, 1941.

KENNEDY PRESS LIMITED

— 21, Albion Street —

GAYTHORN, MANCHESTER 1

INDEX

| | Page | | Page | | Page |
|--|---------|---|---------|--|---------|
| A | | Alloys of Aluminium with Magnesium and Iron, The Constitution of. By H. W. L. Phillips, M.A. | 167-169 | Condenser Tube Alloys, Service Experience with the Newer.... | 76 |
| Alloys in Atmospheres Highly Polluted with Coal Smoke, The Corrosion of Copper and Some Copper | 9-11 | Austenitic Stainless Steels. Part IV. The Intergranular Corrosion of. By J. H. G. Monypenny, F.Inst.P. | 170-174 | Corrosion in Austenitic Stainless Steels, Intergranular. By J. H. G. Monypenny, F.Inst.P. | 105-109 |
| A Review of the Present Technique of Heat-Treatment as Applied to Wrought Aluminium Alloys. By J. Towns Robinson | 15-18 | Alloys, Copper and Copper. By Wm. Ashcroft | 175-177 | Crystal Structure on the Cold Rolling and Annealing of Copper Strip, The Influence of. By Maurice Cook and T. L. Richards | 110-114 |
| Austenite in High-Speed Tool Steel, The Isothermal Transformation of | 22-25 | Alloys, Classification of Copper and Copper. By H. J. Miller, M.Sc. | 178-183 | Cast-Iron, A Deflectometer for Transverse Testing of..... | 114 |
| Atmosphere Heat-Treatment Furnaces, Electric Semi-Continuous Controlled. By E. Hague | 25-26 | Alloys, Gravity Die-Casting in Copper-Base. By Arthur Street. | 184-186 | Continuous Annealing of Steel Strip, Developments in | 115-117 |
| Advantages of Aluminium Alloys for Commercial Vehicle Construction | 31-32 | Aluminium-Bronze Castings, The Production of. By Frank Hudson | 187-188 | Chemical Black Finishing of Zinc Base Alloy Castings. By "Zincus" | 119-126 |
| Alloy Gravity Die-Castings, Zinc. By E. E. Halls | 33-34 | Aluminium Alloys, Testing. By H. F. James | 191-192 | Cylinder Bores, Induction Hardened..... | 123-124 |
| Alloy, The Rolling of a Magnesium Avoiding Galvanic Corrosion in Light-alloy Products. By G. O. Taylor | 43-46 | B | | Corrosion of 18-8 Stainless Steel in Sodium Chloride Solutions | 127-129 |
| Atmospheres of Heat-Resisting Steels, Note on the Resistance to Furnace. By A. G. Quarell, Ph.D., F.Inst.P. | 47-48 | Boilers, Inter-crystalline Cracking in | 27-31 | Copper for Electrical Contacts. Tungsten | 130 |
| Aluminium, Magnesium or Zinc Powder, Dust Explosion Hazards in Plants Producing or Handling | 49-51 | Batteries, The Effect of Silver on Some Properties and on the Performance of Antimonial Lead Storage..... | 39-40 | Copper and Nickel, Electrolytic Manganese Alloyed with | 133-134 |
| A Study of Some Factors Affecting the Resistance of Cast Iron to Deflection under Load at High Temperatures. By L. W. Bolton..... | 57-60 | Britain's Cause, Use your Energy in | 41 | Corrosion in Austenitic Stainless Steels, Intergranular. Part III. By J. H. G. Monypenny, F.Inst.P. | 137-142 |
| Aluminium Alloys, Characteristics and Applications of High Silicon..... | 67-68 | Blast-Furnace Slag, Form of Sulphur Occurrence in..... | 42 | Causes of Porosity in Tin-Bronze Castings. By T. F. Pearson, M.Sc., and W. A. Baker, B.Sc. | 145-148 |
| American Society for Testing Materials | 69-70 | Baths, The Constitution and Properties of Cyanide Plating..... | 72 | Constitution of Alloys of Aluminium with Manganese and Silicon, The. By H. W. L. Phillips, M.A. | 149-152 |
| Antimony on Magnesium, The Effect of. By Professor W. R. D. Jones | 73-75 | British Foundrymen, Institute of..... | 93-97 | Chrome-Hardening of Cylinder Bores, The | 162-163 |
| Austenitic Stainless Steels, Intergranular Corrosion in. By J. H. G. Monypenny, F.Inst.P. | 78-81 | Beta Region of the Gold-Cadmium Alloy System, The | 97 | Constitution of Alloys of Aluminium with Magnesium and Iron, The. By H. W. L. Phillips, M.A. | 167-169 |
| Alloys, Service Experience with the Newer Condenser Tube | 76 | Base Alloy Castings, Chemical Black Finishing of Zinc. By "Zincus" | 119-120 | Corrosion in Austenitic Stainless Steels, Intergranular. Part IV. By J. H. G. Monypenny, F.Inst.P. | 170-174 |
| A Simple Gas-Testing Appliance. By J. G. Lewis, M.A. | 102 | Bores, Induction Hardened Cylinder | 123-124 | Copper and Copper Alloys. By Wm. Ashcroft | 175-177 |
| Aircraft Production, Die-Casting Speeds up | 104 | British Merchant Shipping | 136 | Classification of Copper and Copper Alloys. By H. J. Miller, M.Sc. | 178-183 |
| Austenitic Stainless Steels, Intergranular Corrosion in. Part II. By J. H. G. Monypenny, F.Inst.P. | 105-109 | Beryllium as a Light Metal Constituent | 152 | Copper-Base Alloys, Gravity Die-Casting in. By Arthur Street, Ph.D. | 184-186 |
| Annealing of Copper Strip, The Influence of Cold Rolling and. By Maurice Cook, D.Sc., Ph.D., and T. L. Richards, B.Sc., Ph.D. | 110-114 | Bricks for use in Steel Works, Dolomite. By T. Swinden, D.Met., and J. H. Chesters, Ph.D., B.Sc. | 153-156 | Castings, The Production of Aluminium-Bronze. By F. Hudson. | 187-188 |
| A Deflectometer for Transverse Testing of Cast Iron | 114 | Bores, The Chrome-Hardening of Cylinder | 162-163 | Cast-Iron Micro-Specimens and the Metallography of Inclusions in Cast Iron and Pig Irons, The Polishing of | 193 |
| Annealing of Steel Strip. Developments in Continuous | 115-117 | C | | D | |
| Aluminium and its Alloys, The Heat-Treatment of | 118 | Committee on the Heterogeneity of Steel Ingots, Third Report of the Oxygen Sub-Committee of the .. | 1-4 | Design, Plastic Theory—Its Application to | 5 |
| Alloy Castings, Chemical Black Finishing of Zinc Base. By "Zincus" | 119-120 | Corrosion of Copper and Some Copper Alloys in Atmospheres Highly Polluted with Coal Smoke, The | 9-11 | Die-Castings, Zinc Alloy Gravity. By E. E. Halls | 33-34 |
| The Application of Spectrographic Methods to the Analysis of Segregates. By E. G. Barker, J. Convey, and J. H. Oldfield | 121-123 | Carburising with Gaseous Media. By F. Collins | 18-21 | Dust Explosion Hazards in Plants Producing or Handling Aluminium, Magnesium or Zinc Powder..... | 49-51 |
| Alloys, Painting Magnesium..... | 125-126 | Controlled Atmosphere Heat-Treatment Furnaces, Electric Semi-Continuous. By E. Hague..... | 25-26 | Developments in Metal-Spraying Technique | 56 |
| A Device for Repetition Testing on the Vickers Hardness Testing Machine | 126 | Cracking in Boilers, Inter-crystalline | 27-31 | Die-Casting, Mould and Core Treatment in | 75 |
| Are Furnace Oxidation Practice Electric. By Norman F. Dufty, A.Met. | 131-133 | Commercial Vehicle Construction, Advantages of Aluminium Alloys for | 31-32 | Die-Casting Speeds up Aircraft Production | 104 |
| Austenitic Stainless Steels, Intergranular Corrosion in. Part III. By J. H. G. Monypenny, F.Inst.P. | 137-142 | Castings, Zinc Alloy Gravity Die. By E. E. Halls | 33-34 | Deflectometer for Transverse Testing of Cast-Iron, A..... | 114 |
| Alloys of Aluminium with Manganese and Silicon, The Constitution of. By H. W. L. Phillips, M.A. | 149-152 | Cause, Use your Energy in Britain's .. | 41 | Developments in Continuous Annealing of Steel Strip | 115-117 |
| Analysis of Iron and Steel, Organic Reagents for the Quantitative. By E. C. Pigott | 157-159 | Corrosion in Light-Alloy Products, Avoiding Galvanic. By G. O. Taylor | 43-46 | Device for Repetition Testing on the Vickers Hardness Testing Machine, A | 126 |
| | | Copper - Nickel - Zirconium Aluminium Alloys..... | 52 | Dolomite Bricks for Use in Steel Works. By T. Swinden, D.Met., and J. A. Chesters, Ph.D., B.Sc. | 153-156 |
| | | Cast Iron to Deflection under Load at High Temperatures, A Study of Some Factors Affecting the Resistance of. By L. W. Bolton..... | 57-60 | Developments in the Non-Ferrous Trades. By Gilbert Evans..... | 165-166 |
| | | Characteristics and Applications of High Silicon Aluminium Alloys..... | 67-68 | Die-Casting in Copper-Base Alloys, Gravity. By Arthur Street, Ph.D. | 184-186 |
| | | Constitution and Properties of Cyanide Plating Baths, The..... | 72 | | |
| | | Corrosion in Austenitic Stainless Steels. By J. H. G. Monypenny, F.Inst.P. | 78-81 | | |
| | | Core Treatment in Die-Castings, Mould and | 75 | | |

| E | Page |
|---|---------|
| Electric Semi-Continuous Controlled Atmosphere Heat-Treatment Furnaces. By E. Hague. | 25-26 |
| Effect of Silver on Some Properties and on the Performance of Antimonial Lead Storage Batteries, The | 39-40 |
| Energy in Britain's Cause, Use your | 41 |
| Explosion Hazards in Plants Producing or Handling Aluminium, Magnesium or Zinc Powder, Dust | 49-51 |
| Empire Mineral Resources, The | 71-72 |
| Effect of Antimony on Magnesium, The. By Professor W. R. D. Jones and L. Powell. | 73-75 |
| Experience with the Newer Condenser Tube Alloys, Service | 76 |
| Examination of a High Sulphur Free-Cutting Steel Ingot. By E. Gregory, Ph.D., and J. H. Whiteley, F.T.C. | 85-88 |
| Electrolytic Polishing of Steel Specimens | 92 |
| Electrical Contacts, Tungsten Copper for | 130 |
| Electric Arc Furnace Oxidation Practice. By Norman F. Dufty. | 131-133 |
| Electrolytic Manganese Alloyed with Copper and Nickel | 133-134 |
| Efficiency of Iron and Steel Works, Increasing the | 189-190 |
| Engineers and Metallurgists, Sheffield Society of | 192 |
| F | |
| Furnaces, Electric Semi-Continuous Controlled Heat-Treatment. By E. Hague | 25-26 |
| Form of Sulphur Occurrence in Light-Alloy Products. By G. O. Taylor | 43-46 |
| Furnace Atmospheres of Heat-Resisting Steels, Note on the Resistance to. By A. G. Quarrell, Ph.D., F.Inst.P. | 47-48 |
| Factors Affecting the Resistance of Cast Iron to Deflection under Loads at High Temperatures, A Study of Some. By L. W. Bolton. | 57-60 |
| Free-Cutting Steel Ingot, Examination of a High Sulphur. By E. Gregory, Ph.D., M.Sc., and J. H. Whiteley, F.T.C. | 85-88 |
| Furnace Oxidation Practice, Electric Arc. By Norman F. Dufty | 131-133 |
| Forgings, Quench Crack Prevention in Ni-Cr-Mo. By Bernard Thomas | 144 |
| G | |
| Gaseous Media, Carburising with. By F. Collins | 18-21 |
| Gravity Die-Castings, Zinc Alloy. By E. E. Halls | 33-34 |
| Galvanic Corrosion in Light-Alloy Products, Avoiding. By G. O. Taylor | 43-46 |
| Gas Testing Appliance, A Simple. By J. G. Lewis | 102 |
| Gold Cadmium Alloy System, The Beta Region of the | 97 |
| Gravity Die-Casting in Copper-Base Alloys. By Arthur Street, Ph.D. | 184-186 |
| H | |
| Heterogeneity of Steel Ingots. The Third Report of the Oxygen Sub-Committee of the Committee on the | 1-4 |
| Heat-Treatment Supplement | 13-26 |
| Heat-Treatment as Applied to Wrought Aluminium Alloys, A Review of the Present Technique of. By J. Towns Robinson | 15-18 |

| | Page |
|--|---------|
| High-Speed Tool Steel, The Isothermal Transformation of Austenite in | 22-25 |
| Heat-Treatment Furnaces, Electric Semi-Continuous Controlled Atmosphere. By E. Hague | 25-26 |
| High Temperatures, A Study of Some Factors Affecting the Resistance of Cast Iron to Deflection under Load at High. By L. W. Bolton | 57-60 |
| High Silicon Aluminium Alloys, Characteristics and Applications | 67-68 |
| Heat-Treatment of Aluminium and Its Alloys, The | 118 |
| Hardened Cylinder Bores, Induction | 123-124 |
| Hardness Testing Machine, A Device for Repetition Testing on the Vickers | 126 |
| I | |
| Ingots, Third Report of the Oxygen Sub-Committee of the Committee on the Heterogeneity of Steel | 1-4 |
| Iron and Steel Institute, The | 6-9 |
| Isothermal Transformation of Austenite in High-Speed Tool Steel, The | 22-25 |
| Intercrystalline Cracking in Boilers | 27-31 |
| Intergranular Corrosion in Austenitic Stainless Steels. By J. H. G. Monypenny, F.Inst.P. | 78-81 |
| Industry, Manganese in the Steel | 82-85 |
| Ingot, Examination of a High Sulphur Free-cutting Steel. By E. Gregory, Ph.D., and J. H. Whiteley, F.T.C. | 85-88 |
| Influence of Molybdenum Content upon the Properties of High-Speed Tungsten-free Tool Steel. By D. W. Rudorff, A.M.I.E.E. | 88-91 |
| Institute of British Foundrymen | 93-97 |
| Intergranular Corrosion in Austenitic Stainless Steels. Part II. By J. H. G. Monypenny, F.Inst.P. | 105-109 |
| Induction Hardened Cylinder Bores | 123-124 |
| Intergranular Corrosion in Austenitic Stainless Steels. Part III. By J. H. G. Monypenny, F.Inst.P. | 137-142 |
| Iron and Steel, Organic Reagents for the Quantitative Analysis of. By E. C. Pigott | 157-159 |
| Intergranular Corrosion in Austenitic Stainless Steels. Part IV. By J. H. G. Monypenny, F.Inst.P. | 170-174 |
| Increasing the Efficiency of Iron and Steel Works | 189-190 |
| Inclusions in Cast Iron and Pig Irons, The Polishing of Cast-Iron Micro-Specimens and the Metallography of | 193 |
| L | |
| Lead Storage Batteries, The Effect of Silver on Some Properties and on the Performance of Antimonial | 39-41 |
| Low Temperature Research | 42 |
| Large Scale Production Results with Lead-Bearing Steels | 99-101 |
| Light Metal Constituent, Beryllium as a | 152 |
| M | |
| Minerals in the United States, Strategic | 37-38 |
| Magnesium Alloy, The Rolling of a | 40 |
| Metallurgy, Recent Research into Problems of Powder. By D. W. Rudorff, A.M.I.E.E. | 53-56 |
| Metal Spraying Technique, Developments in | 56 |
| Mineral Resources, The Empires | 71-72 |
| Magnesium, The Effect of Antimony on. By Professor W. R. D. Jones and L. Powell | 73-75 |
